#### WHAT IS LUNAR NEW YEAR?

The Chinese zodiac as well as variations in other Asian countries, are represented by 12 animals. According to legend, the Jade Emperor invited the animals of his kingdom to enter a race through the countryside including a wide river at the end. The first 12 to finish the long race would each rule over one year in a 12-year cyclical lunar calendar.

This 2023 Lunar New Year is on January 22nd. It is the **Year of the Rabbit** in the Chinese Zodiac and the **Year of the Cat** in the Vietnamese Zodiac.

#### ARE YOU A RABBIT?

Rabbit years: 1915, 1927, 1939, 1951, 1963, 1975, 1987, 1999, 2011, 2023

People born in the Year of the Rabbit are sweet, empathetic and compassionate friends. Gentle and attentive but also strong in their convictions, rabbits are responsible and great at setting goals for themselves. Their quiet confidence and eye for detail make them fantastic scholars and artists.

Famous Rabbits include: Albert Einstein, Whitney Houston, Michael Jordan, Jet Li, Charlize Theron, Kendrick Lamar, and Lil Nas X
